

Prop65 Compliance Statement

Issued on August 19, 2026

Kollmorgen Corporation believes that the information it provides below is accurate. The provided information is based upon data obtained from ongoing due diligence concerning goods and materials provided by third party suppliers. Kollmorgen Corporation does not routinely analyze components or raw materials for the presence of California Proposition 65 substances. Kollmorgen Corporation provides such information "AS IS", without any express or implied warranty of any kind. Kollmorgen Corporation reserves the right to update and modify this communication, as it believes necessary or appropriate.

The products listed below are industrial products manufactured outside the state of California.

The products have not been assessed for sale to consumers or use by consumers.

The products listed below may contain one or more of the substances listed by the State of California Environmental Protection Agency Office of Environmental Health Hazard Assessment (OEHHA Substance List) as "chemicals known to the State to cause cancer or reproductive toxicity".

However, based on our knowledge of the concentrations of such chemicals in the products and the nature of the normal use and handling of products, our best technical assessment is that the presence of such chemicals in the products create no or negligible exposure to humans or the environment and such exposure, if any, is less than Safe Harbor exposure levels requiring warnings under California Proposition 65.

Please note that the Act does not prohibit the use of listed substances from being present in the product only that they are not released during normal use.
