

EU RoHS Declaration

Issued on 19 August 2026

In accord with the directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 concerning the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment, including Commission Delegated Directive (EU) 2015/863.

Kollmorgen Corporation declares for:

Product(s): standard configuration KED drive, model number

KED-SPM-6V03S-A1XX-XXXX-X

KED-SPM-6V06S-A1XX-XXXX-X

KED-SPM-6V12S-A1XX-XXXX-X

KED-SPM-7V03S-A1XX-XXXX-X

KED-SPM-7V06S-A1XX-XXXX-X

KED-SPM-7V12S-A1XX-XXXX-X

where X in the model number can be any letter or number

RoHS Compliance Status: **Compliant with exemptions**

Applicable Exemption(s):

6(a)-I: Lead as an alloying element in steel for machining purposes containing up to 0.35 % lead by weight¹.

6(c): Copper alloy containing up to 4 % lead by weight.

7(a): Lead in high melting temperature type solders (e.g., lead-based alloys containing 85% by weight or more lead).

7(a)-I: Lead in high melting temperature type solders (i.e., lead-based alloys containing 85% by weight or more lead) for internal interconnections for attaching die, or other components along with a die in semiconductor assembly with steady state or transient/impulse currents of 0.1 A or greater or blocking voltages beyond 10 V, or die edge sizes larger than 0.3 mm x 0.3 mm.

7(c)-I: Lead in glass or ceramic other than dielectric ceramic in capacitors (e.g., piezoelectronic devices) or in ceramic matrix compounds.

7(c)-II: Lead in dielectric ceramic in capacitors for a rated voltage of 125 V AC or 250 V DC or higher.

7(c)-V: Electrical and electronic components containing lead in a glass or glass matrix compound that fulfils one or more of the functions defined in Annex III of the Directive 2011/65/EU².

7(c)-VI: Electrical and electronic components containing lead in piezoelectric lead zirconium titanate (PZT) ceramics or providing ceramics with a positive temperature coefficient (PTC); excluding items covered by points 7(c)-II, 7(c)-III and 7(c)-IV, as well as point 14 of Annex IV.

Legal text follows on page 2.

Notes:

¹The rate of lead release does not exceed 0.05 µg/cm²/hour (equivalent to 0.05 µg/g/h).

The coating is sufficient to ensure that this release rate is not exceeded for a period of at least 2 years of normal or reasonably foreseeable conditions of use of the KED drive.
