

Quality and Environmental Policy (90402-002)

Through world class knowledge in motion, industry leading quality, and 45+ years of proven performance in driverless control technology, Kollmorgen Automation AB delivers breakthrough driverless control solutions, giving AGV suppliers an irrefutable marketplace advantage.

Through the Altra Business System (ABS), Kollmorgen Automation AB achieves world class excellence in customer satisfaction, beginning with the voice of the customer, continuously improving quality, delivery, cost and innovation. We employ ABS to minimize our environmental impact in the design and management of the material content in our products as well as reducing CO2 emissions in our daily work while ensuring customer needs are fully satisfied. By managing our quality and environmental work in a systematic way, we ensure compliance with requirements, laws and regulations.

We strive to increase knowledge and awareness of Kollmorgen Automation AB's environmental impact among our employees, customers and suppliers.

ABS provides the necessary tools and processes to enable Kollmorgen to achieve both its:

- Vision: Enabling Innovators to Make the World A Better Place.

And

- Mission: To be the best at solving the most demanding motion challenges through collaboration with our end users, customers, suppliers, innovation partners, and each other.

ABS is who we are and how we do what we do. It is more than a management system or business model – it is part of the mentality of everyone in the company based on the following core values:

- We win as aligned, capable, and engaged teams
- Customers inspire our innovation
- Go and see is how we lead
- Continuous improvement is our way of life
- We deliver exceptional value to our stakeholders, communities, and society
