

# 6410 Heatsink Assembly Instructions

Use these instructions to install the heatsink accessory kit (Part number HS-6410) on the 6410.

## Parts List

The following is a list of materials and quantities that you will need to attach the 6410 heatsink.

Silpad (847-016411-01) - **1**  
Heatsink (172-641002-01) - **1**  
Screws (809-040706-10) - **4**

***BOLD values indicate quantities.***

### Note

1. Remove the 4 screws from the heatsink accessory kit.
2. Place the Heatsink with the Silpad on the 6410.
3. Insert the screws through the slots in the 6410, into the heatsink and tighten to  $15 \pm 1$  in-lb. ***DO NOT over-tighten or thread damage may result.***
